**RE: Water Storage - A Joint Discussion Document written by
BC Cattlemen Association & Ducks Unlimited Canada**

Dear Ministers:

We valued the opportunity to meet with you last week in Victoria for BC Beef Day. Thank you for taking the time to meet with our delegates.

In follow-up to discussions held on water storage and livestock watering, I am enclosing a copy of the BCCA's joint discussion document written with Ducks Unlimited Canada on the water storage benefits.

BC Cattlemen have much in common with our partners at Ducks Unlimited, we both believe that water stored on the landscape has numerous ecological and societal benefits.

This document outlines many challenges and opportunities to partner on practical solutions for meeting our water needs into the future.

We appreciated meeting with you and your staff at BC Beef Day and look forward to continuing our work together.

Warm regards,

Kevin Boon,
BCCA General Manager
